Immediate Work Anticipated On $350,000 Market

Construction of the new McDaniels Market building, at a cost of $350,000, is due to get under way almost immediately with the Upland City Building Inspector's office expecting to issue a building permit for the project this week.

To be constructed on a 20-acre shopping center site on the north side of Foothill Blvd. and on the east side of Alta Ave., in the commercial center of Foothill Knolls, the new super market will be the initial unit in that commercial center.

Albert L. Wolins, executive vice president and general manager of McDaniels Markets, told THE NEWS yesterday that equipment for the building will cost approximately $225,000, and after construction, equipping and stocking, the market will represent an investment of $1,000,000.

The structure will provide 36,000 square feet of floor space, equipped with air conditioning, sound proofing, 13 automatic check stands, wide aisles, the latest furniture for merchandise displays and decorated in modern pastels. Final plans have been completed.

McDaniles Market now is located in Upland at Grove Ave. and Chaffee St., where Guy Sandridge Jr. is manager. The grocery chain earlier this year bought the Walkers Markets chain, including the Upland facility.

Located in the new shopping center, convenient to serve the shopping needs of a wide area—East Upland, Red Hill, Cucamonga and Alta Loma—the proposed market will be the nucelus for further commercial development on the 20-acre site, where large expanses of parking area will serve the patrons.

Initial Progress Reports Due At United Fund Meet

Inital progress reports on the $225,000 West End United Fund campaign will be given at a report breakfast Friday at 7:30 a.m. in the Stuft Shirt restaurant, Joseph Hecht, UF president, said today.

Mr. Hecht said the Advance Gifts Committee and the Professional Division will submit reports on total collections to date at the breakfast to indicate how the fund drive is progressing. The Advance Gifts Committee had a $98,500 goal while the Professional Division is seeking $35,000 in contributions.

The chairman also said reports to United Fund headquarters are too scattered as yet to determine how the fund drive is progressing. The Friday reports, however, should show the trend.

Mr. Hecht announced the Price Foundation has donated a $5,000 check to the Fund to defray initial campaign expenses. He said the locally-managed Foundation ordinarily does not participate in fund drives, but donated the money since the United Fund does not have any backlog of funds from previous year to operate its office. This is the first cooperative West End fund-raising venture

In addition, the Fund drive was swelled last week by two major contributions from Lockheed Aircraft Service, Inc., and Lockheed Employees Fund. LAS pledged $4,000 to the drive, and the employee group, $4,976.

Mr. Hecht said three more phases of the campaign remain before the fund drive closes for the year. The Employee Groups Committee will launch its portion of the drive next, followed by the Business Division and the house-to-house residential canvass.

Manley, Nisbet Shaw Win By Majorities

Reported at press time a week ago as leading and virtually victorious in their various election contests, Richard G. Manley, Eugene G. Nisbet and Stanford C. Shaw were elected to office on Nov. 4, according to the unofficial tally of San Bernardino county Registrar of Voters.

Mr. Manley was elected as Second District Supervisor with 20,459 votes, leading Eugene Conlon by 6,295 votes as the Fontana city councilman polled 14,164 ballots.

In the 72d Assembly contest, Eugene G. Nisbet of Upland was re-elected to the state legislature with 43,676 votes over Daniel D. Mikesell's 25,563. Mr. Nisbet's victory was by an 18,113 majority.

Mr. Shaw was elected to succeed State Senator Raymond Gregory, having compiled a vote of 79,972—a lead of almost 10,000 over Senator Gregory.

The success of these West End candidates would indicate the political leadership in San Bernardino county provided by this area. In the Assembly voting, both candidates were from the West End and thus attracted great interest in the area.

Official tabulation of the county-wide voting was begun in the Registrar's office Monday and is expected to take one or two weeks to complete.

Sr. Breakfast Ticket Sale Contest Ends

Plans for the promotion of a ticket selling contest for the Senior pancake benefit breakfast was the order of business when the Senior Council of Upland High School met recently. Sgt. Feliz Quesada, Juvenile Officer, Upland Police Department, was unanimously elected honorary chairman for this important money raising event. Yolanda, daughter of Sgt. Quesada, with the able assistance of Sally Gardner and Phil Snethen, campus ticket chairman, and all Senior students, took action immediately and sold the first ticket to Chairman Quesada.

A prize is being offered for the boy or girl selling the greatest number of tickets, with the deadline for the contest set for Friday, the 14th.

The breakfast will be served in Upland Woman's Club house, Saturday morning, Nov. 22 from 7 to 11:30 a.m., with the Woman's Club donating the use of its facilities for the purpose. Proceeds will be used for graduation week activities.

Commander's Trophy Turkey Shoot Feature

More than 150 prizes were awarded at the initial pre-Thanksgiving turkey shoot of Upland Legion post held Sunday at the E. 16th St. trap shoot range, when more than 200 shooters participated.

At stake in the annual shoots which continue this Sunday, Nov. 16, and Sunday, Nov. 23, is the Commander's Trophy, to be awarded at the latter event to the sportsman with the greater number of turkeys won, according to Commander James Moore.

The turkey shoots raise funds for the several major projects of the Legion, namely the Jr. Legion baseball program, Boy Scout Troop 4, California Boys State, Sons of the Legion program, Pony League baseball, and rehabilitation of veterans.

Upland College Nears Final Accreditation

LOOKING SOUTHEAST from the corner of Ninth St. and Laurel Ave., next summer, one will see this outstanding development, the Sanders and Zook Mortuary for which construction is scheduled late in December. Architect James T. Fickes, A.I.A., of Arcadia, rendered this drawing of his California contemporary facility, providing office and mortuary facilities in the front unit facing on Ninth St., with the garden chapel to the rear, with access from Laurel Ave. The mortuary garage can be seen at top left.

January Visitation Will Determine Final Approval By Western College Assn.

Upland College faces the final step toward accreditation on Jan. 13-14.

Those are the days a "full visitation committee" of the Western College Assn. will be in Upland.

The way was paved for this visit by a "preliminary visit" in October which resulted in tentative approval because of "substantial progress" shown in developing the college. Previously a preliminary visit failed to win approval.

Synonym For Quality

If Upland College is "accredited" it will mean the institution will have its students accepted and its work accepted throughout the United States. Accreditation is a synonym for "quality."

The first public announcement of this news was made at a meeting Monday night at Holiday Inn.

Dr. John Z. Martin, president, and Dr. Wilson M. Compton of New York City, financial advisor, and Dr. Ernest Boyer, dean of students, spoke.

Outlined in the talks was the opinion that Upland College has made great strides in both quality of education as well as in its physical plant and the future holds great promise.

Growth Statistics

Dr. Martin cited the growth in plant evaluation as rising from $56,000 in 1945 to $325,000.00 in 1958, the operational budget rising from $30,000 in 1946 to $196,000 in 1956, and donations increasing from $10,000 in 1946 to $60,000 in 1958.

He said in summary that "Upland College is doing a good job, and can do a better job with support if we tell our story and get additional money. We will produce a better Upland College than it ever has been before."

Dr. Martin emphasized the progress being made in the quality of education, as proved by graduates and studies and comments of others.

He said Upland College compares favorably in a 60-college study as to national averages in use of funds and in scholarships. He cited the benefits from obtaining war surplus buildings which were improved at $3.25 per square foot.

Library Major Need

The major need now for the college is a library, Dr. Martin noted. The college has 14,000 volumes now in use.

Of the $66,000 in donations last year, the money was raised equally from the community, the alumni and church. Future hopes are to split the donations four ways, by including foundation gifts.

Dr. Compton in essence predicted a great future for Upland College if everyone "takes an interest in what is happening to this college."

He said there would be a struggle to get and keep academic recognition so more students will want to come to school here.

He said "a little help" for a period of years to lift Upland College to a higher level will be well-repaid.

He noted that even more improvements in school salaries and facilities would be needed.

Teaching Sets Pace

"An institution is never any better than the teaching within the walls," he remarked.

Dr. Compton told his audience that Upland College can accommodate twice as many students as it now has, and that "making the best use of the facilities we already have" in the United States would mean expanding Upland College and other colleges rather than starting new colleges. Expansion can be accomplished at one-quarter of the cost of a new college, he said.

He also decried education being dominated by political rule, and urged strong public and private schools.

Dean Boyer reviewed the academic situation relative to prospects for accreditation.

Basis For Quality

He commented on the elusiveness of the term "quality," but cited his yardsticks for measurement.

One is that seniors last year averaged in the 60th percentile across the country in tests, that they did better on the graduate level comparatively, the recognition of the state university, and approval of teacher creditentials.

The January evaluation will be a final step in determining the academic rating of the college.

3 Upland Men Die In Crash

Three Uplanders and a Fontana man met sudden death in the early fog filled hours of Saturday morning when the auto in which they were traveling collided with a train crossing Valley Blvd. in Fontana on the Southern Pacific tracks.

Dead are Jack Miller Welch, 24; Lenard L. Hilke, 29; Dale Hilke, 24, all of Upland, and Monte Ivan York of Fontana.

Young Welch was pulled from the flaming vehicle by passing motorists, but was declared dead on arrival at Kaiser Hospital. The other men's remains were removed from the charred wreckage when the fire was extinguished.

The California Highway Patrol report said the men were returning to Upland after spending the evening in Fontana. Early morning fog had slowed traffic to 20 miles per hour with almost zero visability.

Iron ore gondolas of a slowly moving freight train were struck by the automobile, and witnesses at the scene believed the four men were killed instantly as no cries were heard following the crash.

Lenard Hilke and Monte York were both married and are survived by small children. Neither Dale Hilke or Jack Welch were married.

Funeral services for Welch were conducted yesterday and joint services for the Hilke brothers are being held today. Funeral details and obituaries are printed on the Church page.

Sanders & Zook Mortuary Construction Next Month

Contemporary Chapel Feature Of Funeral Home

Construction is scheduled to begin before the end of the year on the Sanders and Zook Mortuary in Upland, according to the announcement being made today by Vern Zook and C. Richard Sanders, the second announcement in recent weeks concerning new mortuary and funeral home facilities for this city.

Late December groundbreaking and May occupancy is planned for the 9000 square foot building to be centrally located at the southeast corner of Laurel Ave. and Ninth St., one block west of Euclid Ave. In this location, the California contemporary structure and the Church of the Nazarene on the opposite corner will complement each other to provide a greatly enhanced area.

Accommodate Weddings

Sanders and Zook Mortuary will feature a garden chapel, to be available as a wedding chapel as well as for funeral use, and will have a soaring natural finish wood interior following the laminated arched ceiling, with side window walls opening onto an outdoor plant and flower court with garden walls.

Hardwood paneling and piers of random canyon stone will decorate the altar and chancel of the chapel. Screen grills will be structural effects used on exterior windows of the building. A patio will adjoin the family room, with garden landscaping.

A generous parking area and garage building to house the mortuary vehicles are included in the plan, and coordinated landscaping for the development will be illuminated by special lighting effects.

Three Local Families

Active management of Sanders and Zook Mortuary is composed of three local families long associated with the Upland-Ontario scene. Mr. Sanders was born in Upland and attended Ontario schools while Mrs. Sanders is the former Jacquelyn Sellers of this area. Both are 1946 graduates of Chaffey High School and Mrs. Sanders was a member of the Chaffey College Class of 1948. Mr. Sanders served in the U. S. Navy for two years and was graduated in 1949 from the California College of Mortuary Science. The couple have three children. Vice president of a Long Beach mortuary since 1957, Mr. Sanders has been with that mortuary since leaving this area after seven years with a local mortuary. His parents are Mr. and Mrs. Chas. T. Sanders and a sister is Mrs. Hubert P. Weldon of Upland.

Mr. and Mrs. Vern Zook came to Upland in 1921 and attended Upland schools. Mrs. Zook is the former Geneva Shilling of Upland. The couple, married in 1924, has two sons, Robert E. Zook and Kenneth Zook. In 1928, the family returned to Mr. Zook's home state of Kansas where they farmed until 1943, returning then to this area. Building material yards and construction work locally occupied Mr. Zook before he moved to Monrovia in 1954. For the past four and one-half years he and Mrs. Zook have been associated with their son, Robert Zook, in the Douglas and Zook Mortuary, Monrovia. For seven years, Vern Zook has served on the board of Upland College.

Native Uplanders

Robert E. Zook is married to the former Elsie Alderfer, daughter of pioneer Uplanders, the Hiram Alderfers. Her brothers are Dr. A. James Alderfer and the Rev. Owen Alderfer, both of Upland. Both Mr. and Mrs. Zook are native Uplanders and were educated here.

After graduation from Upland Academy, Robert Zook served in the army and then entered California College of Mortuary Science where he was graduated in 1947. In 1948 he became associated here with his father in the contracting business and in 1952 became co-owner of the Douglas and Zook mortuary, with which he is still affiliated. The couple has three sons, all native Uplanders.

Upland Chamber of Commerce membership drive will close Nov. 22 and completing the campaign is a plan for every Chamber member to contact and sign-up one new member on or before Saturday, Nov. 22.

Final plans for the drive were mapped Wednesday morning when Malcolm "Gus" Wise, membership chairman, met with his committee for breakfast in the Home cafe. Also present were Lillian Hilde, Chamber secretary; President Cal Shores, Vice President James Stamm, Jack Mishler and Ted Atwood.

Next Chamber meeting is Dec. 2.

R-3 Zoning Sought For 20 Acres

When Upland Planning Commission meets Friday, Nov. 28, two zone changes will be among the major business on the agenda, according to Rod Anderson, Commission secretary.

J. H. A. Nolan's request for a zone change from R-1-C residential to R-3 multiple family residential for 20 acres at the southwest corner of Mountain Ave. and 11th St. will be a major item for consideration and public hearing.

The acreage is now zoned for 10,000 square feet single family residential lots in an area designated on the master zoning plan for a deluxe residential area.

A second zone change request to be given a public hearing at the same Commission session concerns the request for a change to R-1-D residential from the present A-2 (poultry and rabbit raising agricultural) zoning for property located between Huntington Dr. and Ninth St. and between Sierra Pl. and Benson Ave.

Brazilian Flora Speaker Before Begonia Society

"Brazilian Flora" will be the title of a talk to be given by Mrs. Sylvia Leatherman, El Monte, at the Nov. 20 meeting of Foothill Branch of American Begonia Society, 2309 Third St., La Verne.

Mrs. Leatherman will show colored slides taken on a recent trip to the Spring Flower Show in San Paulo, Brazil where she acted as judge.

A Harvest Moon supper at 6:30 p.m. will preceded the talk at 8 o'clock.

Anyone wishing additional information may call Mrs. C. W. Hall, Yukon 2-4615.

NURSE'S ASSN. SECTION MEETS HERE NOV. 17

Private Duty Section, District 53, California State Nurse's Assn. will meet in the home of Elsa Horsch, R. N., 840 N. Euclid Ave. at 7:30 p.m., Monday, Nov. 17.

Dr. L. F. Grams, dermatologist, will address the group. Members of private Duty Section, Dist. 19, Pomona, will be guests of the evening. All Registered Nurses are invited.

GRATITUDE AND FAITH

The Rev. Richard E. Pitts, pastor, has announced "Gratitude and Faith" as the title of his sermon for Sunday worship services in First Methodist Church.

CARD PARTY SIERRA VISTA PTA EVENT

Sierra Vista PTA is planning a card party for Friday, Nov. 21, 7:30 to 11 p.m. in the multi-purpose room of the school. This will be one of the few money raising projects of the group this season, so it is hoped that the parents will support this venture to increase the treasury and have an enjoyable evening at the same time. Donations are $1 per person.

All kinds of card games will be played, so the committee suggests that members "plan a foursome, if possible, otherwise, come as a couple or alone and someone will be found to make up groups, but COME."

Many door prizes will be given and dessert and coffee will be served. Tickets may be obtained by sending a note to school with a student or by calling Yukon 2-2275 or Yukon 2-6715, according to Mrs. G. H. Tatham, finance chairman.

Executive board met Thursday in the home of Mrs. Joseph Connally, 2453 San Antonio Cr. E., with Mrs. John Harrah, president, in the chair. Reports were given by the membership, finance and juvenile protection committee chairmen.

A community-wide program for the safety of children, walking or riding, is being undertaken with the full cooperation of Upland city officials and representatives of all city schools. The program is to be put into action at the earliest possible date.

James M. Kincaid, seaman USN, son of Mr. and Mrs. Thomas B. Kincaid of 252 S. Sultana Ave., is serving aboard the high speed transport USS Diachenko, operating with the U. S. Seventh Fleet in the Far East.

Fourth Graders Make Upland Map

In connection with geographical study of California, a model map of Upland was made by the fourth grade class of Mrs. Marilyn Dickinson of Upland Elementary school recently. Houses of individual students were made from small match boxes, or pieces of wood, were painted and labeled before being placed on the table map. Streets were labeled and various civic buildings were also included. Sponges were dyed and used for foliage. The project served as an introduction to a study of modern California. Shown with the project are, from left, Dianna Zets, Gene Bodini, Bobby Bianco, Ricky Adams, Robt. Andrade, Helen Ramirez, Christine Coats and Carol Wise.

Co-hostesses for the year were selected, as it is the policy of the club to have each meeting in the form of a party.

"Hawaii Calls" was the theme of the November meeting, when rooms were decorated in an Hawaiian motif and members were dressed in a manner suggesting the atmosphere of the Islands. Mrs. George Gibson showed colored slides of her recent trip to Hawaii.

Driver Education Actual Driving Completed By 43 Students

Forty-three Upland High School students completed behind-the-wheel training driver education recently. Lloyd Conner, department chairman, announced today that each of the students has had six actual hours of supervised driving on the streets and highways. Each student, also has spent 12 hours observing other drivers, sitting in the car with them.

"We do not say that these 43 students are expert drivers." Mr. Conner said. "We try to teach them the basic principles of good driving." He also said that one of the biggest problems of the driver education staff is "unlearning bad habits". He indicated that the correction of bad driving habits takes more time than teaching one who has never driven a car before.

The students will continue to take class work in driver education through the semester. Mr. Conner stated that he hoped they would go on to become expert drivers.

Under Instructor Manuel Meza, the following trained: Clyde Nolen, Virginia Moore, Dennis P. Smith, Dennis Temby, Tom Pilkington, Victoria Islas, Michael Christensen, Patricia Allen, Judith Mitchell, Don Fendon, Sandra Wise, Sharon Larson, and Virginia Jong.

It's A Mirage-- Or The Uplander

BY JOEL BAUGH

Have you ever driven across the desert on a hot summer day and suddenly seen a magnificent oasis ahead—only to learn it was a mirage?

Travel weary motorists on Route 66 will probably think its another mirage when they first spot The Uplander Motor Hotel but as they approach it, no disappearing act will disappoint them. Once convinced the "mirage" is real, they can stop for a stay at one of the world's most distinctive and luxurious motor hotels, combining the features of motel, hotel and luxury resort.

$1,000,000 Investment

Once pampered by all this splendor, the motorist is likely to have considerable misgivings about leaving The Uplander, the $1,000,000 dream come true of Mr. and Mrs. Walter C. Muller.

These are some of the impressions taken away from The Uplander last evening by the several hundred business, civic, social and community leaders invited to the grand opening of the hostelry, when cocktails served poolside and in the Valley Host Room, and guided tours of the 60-suite hotel were featured by Mr. and Mrs. Muller, Jim Clark, the resident manager, and Mrs. Clark.

Dramatic in its conception, bold in its contemporary grandeur, luxurious in its appointments and colorfully fresh in its decor, The Uplander will stand for years to come as a distinctive port of call for the traveler and winter visitor to Southern California, and as a landmark to establish Upland's identity.

Warmth, Graciousness

Bringing the warmth and graciousness of Early California to the scene are many factors—the architecture reminescent of the early California ranch house, the court yard in which the large pool is the focal point, and the turquoises, olive greens, rusts and other muted shades of the interior decor.

The especially large guest rooms are each equipped with sliding glass walls giving access to private lanais, each separated by gaily striped canvas dividers for complete privacy yet open to a view of the courtyard scene.

Water color paintings by Milford Zornes key the decor in each accommodation, with the special guest facilities designed as executive suites, business man's rooms, family rooms and honeymoon suites. All have been specially designed and furnished for these specific needs yet versatile enough for other uses.

Stunning Raymond Lowey wallpapers and Scandinavian inspired case furniture designed by Kipp Stewart and Stewart MacDougall of Santa Barbara are found in every room. Central heating and air conditioning are individually controlled in each room, which also is equipped with complimentary television and telephone.

Convenient parking, doorside is provided for each quiet-conditioned suite. Laundry and dry-cleaning service are provided, as well as babysitting service. Accessability to The Stuft Shirt restaurant, which provides room service to The Uplander guests, is also a major feature.

Unresolved Question

Fruit Elimination In Grove Vs. Profitless Marketing

Whether or not to eliminate low quality lemons in the grove, market them and break-even or possibly realize a loss was an unresolved question before Upland Lemon Growers Assn. here Thursday.

The Assn. held its annual meeting in Upland Elementary School auditorium with less than 75 of its more than 300 members present, an average attendance.

Elimination Question

A. B. Van Fleet, an Assn. member, urged that poor fruit be eliminated in the grove rather than be picked, processed at the lemon house and marketed with the break-even or loss possibilities. Assn. President Warren Wass raised the question of endangering the local lemon growers' future markets if this is done.

Mr. Wass explained that if the Assn. should discontinue to pick and market the low quality fruit to the citrus by-product concerns, it would leave the door open for importation of lemon concentrates and create a demand for lemons from other areas. He cited the strong possibility of lemon acreages being increased in other areas to fill such a demand, with the eventual possibility of replacing the local lemon industry.

Harry Harlow Reports

Always reliably informative, Harry Harlow, retired O. K. Fruit Exchange manager now serving in an advisory capacity to the Exchange (now O. K.-San Antonio), addressed the group of lemon growers. Mr. Harlow reported that industry-wide for the 1957-58 crop year ended Nov. 1, 42 per cent of the total lemon picks were shipped domestically, 18 per cent were exports and 40 per cent went to lemon products. Locally, 43 per cent of the total lemon picks were shipped to domestic markets, 25 per cent were exported and 32 per cent went for lemon products. The higher percentage of local exports reduced the percentage going to by-products, Mr. Harlow emphasized.

With the S. Calif.-Arizona industry entering the new season with a seven per cent greater marketing year than the previous crop year, Mr. Harlow reported that locally the industry entered the new crop year with a 20 per cent decreased marketing year than in 1956-57. The lower fruit quality caused by last winter's winds, on top of a smaller crop, created the drop in local lemon marketing, he reminded.

Hasty Sees Improvement

W. P. "Doc" Hasty, house manager for the Assn., also addressed the growers. He anticipates one or two low quality picks early in the current season but overall expects some good fruit picks to follow for an improved season.

Higher costs for picking lemons in the Assn. members' groves during the past year were 9.43 cents per box rate higher due to less volume per pick in the groves and more selective picking due to poor quality fruit. With the pickers guaranteed 85 cents per hour, and the same acreage of grove to cover despite less fruit, the picking costs per box cost the additional amount.

Directors Re-Elected

Karl Loos, Sunkist Growers, Inc., special legal counsel from Washington, D. C., was a distinguished speaker at the meeting, relating the benefits of the new Sunkist consolidation.

By unanimous ballot, the Assn. board of directors was re-elected. The members are Warren Wass, Keith Koehler, Theo Davis, Harold Stewart and Roy Person. The board met in session later to re-elect Mr. Wass as president. Mr. Koehler vice president; Jarvis J. Leman, secretary-treasurer, and Mr. Hasty as general manager.

GLADYS KINSBURY AT HEIGHT OF CAREER

Upland's Mrs. Cooley

Funeral Today For Former Actress Gladys Kingsbury

Mrs. Camilla Cooley, 175 Vernon Dr., died Nov. 10 in Euclid Ave. nursing home, following an illness of 20 years. She had been in the rest home for the past four years. Born in Oakland, Calif., July 30, 1879, she was 79 at the time of death, and had resided in Upland for 17 years.

Mrs. Cooley, known professionally as Glady Kingsbury, was a retired stage and screen actress, and was last employed by Glendale Stock Co. She and her husband toured this area in 1910 with their own company, known as the Frank Cooley Repertoire Co., with a week's run in each city, and a different performance each night. Many early day residents will recall her appearances here. Other than her work on the stage, she also appeared in motion pictures.

Her husband, Frank Cooley preceded her in death, in July, 1941. She is survived by a daughter, Mrs. Harry Trzcinski, Upland, with whom she made her home, prior to entering the nursing home. A sister, Mrs. Elsie Nielson of Oakland and a brother, Victor Nielson of Salt Lake City also survive the deceased.

She was a member of Christ cheon meeting in Sycamore and services will be held there at 10 o'clock this morning, with the Rev. Evan R. Williams, rector, in charge. Interment will follow in Hillside Cemetery, Redlands.

Stone Funeral home is in charge of arrangements.

Traffic Accident Follows Theft Of Lumber Here

Free on $100 bail is Robert George Doss, 223 W. Sunkist, Ontario, who is scheduled to appear in Upland Justice court today in answer to charges of stealing $25 worth of lumber from the apartment building project of Homer Saunders on N. Campus Ave. between 11th St. and Foothill Blvd.

Doss was arrested Saturday evening after he was followed from the construction scene by a nearby resident who had become suspicious of the man loading lumber into a pickup truck. Upland Police were notified and while they were at the construction site, learned that Doss had been involved in a traffic accident in Ontario.

The truck and lumber were impounded. Taken from the construction site were 50 2x4s about eight feet long.

TOASTMASTERS

John Salvinger was the Nov. 5 "speaker of the week" winner in Upland-Foothill Toastmasters club, when "I Was a Vocal Contortionist" was his topic. Bill Thomas was toastmaster of the evening and Rayburn Anderson, vice president, presided.

LEMONS were still the topic for this group following the annual meeting of Upland Lemon Growers Assn. Thursday. From left are A. B. Van Fleet, John A. Andreas, W. P. "Doc" Hasty, the Assn. Lemon house manager; Warren Wass, re-elected Assn. president, and Karl Loos, legal counsel for Sunkist Growers, Inc., here from Washington, D. C., for the meeting.

Council Retains Hourly Employee Lay-Off Policy

Some hourly employes of the City of Upland will continue to be laid off for at least 30 days after working six consecutive months during the year, and then rehired if the work load of the department requires their services.

This was the decision of Upland City Council in Thursday night session. The question of keeping hourly employes on the job pass the six month limit in order that they gain the retirement program was presented by Councilman John Nicholson.

City Manager Elwin Alder explained that as many of the hourly employes are seasonal and the work load of various departments does not warrant their services for more than six to nine months of the year, the city long ago established the practice of laying off such employes at the end of a six month period so as not to necessitate the payment of city funds into a retirement program. Mr. Alder estimated that the city saves $1,000 or more by this practice each year.

Mr. Nicholson said that both city employes and private citizens have condemned the practice in discussing it with him. Councilman Wm. Kistinger, on the other hand, reported reverse opinions expressed to him.

Councilman Nicholson advanced the theory that a man working on a full-time basis with retirement benefits involved gives a better performance on the job. Mayor Abner Haldeman contended that "where an employee works only for tenure and retirement, the city does not receive the utmost in efficiency," quoting a speaker at the recent League of Calif. Cities convention.

A motion was then presented by Mr. Nicholson to provide a city policy to the effect that "hourly employes may be retained as long as the work load requires" but in the final vote, only he and Councilman Phil Holden voted for the provision. No votes were cast by Councilmen Kistinger, Jarvis J. Leman and Mayor Haldeman.

$137,522 Cost Of Parking Lot Properties

Total cost of acquiring 14 properties for the three downtown parking lots in Upland is $137,522.65, according to compilation of expenses by City Clerk Hazel Cassell.

This total includes the purchase price of each property, tax adjustments, assurance of title, escrow fees and insurance pro-rates.

Before total cost of the parking lots can be figured, the cost of the new construction and demolition of existing structures must be added. The Jack Stevens Construction Co. of Alta Loma is to do the razing and construction for a total cost of $17,662. Not included in this construction cost is the lighting for the three lots, on which work is scheduled by Dec. 1.

City Ends Canine Reign Of Terror

After many years of a "give the dogs free rein," situation, Upland today can look forward to the end of this canine reign of terror, a Dog Leash ordinance having been adopted by Upland City Council.

To take effect Friday, Dec. 5, the new ordinance is similar to leash laws in other cities of the area and provides for control of cats, other animals and fowl as well as dogs.

The ordinance was demanded in a recent petition signed by more than 100 residents, a result of extensive yard damage and other nuisances from dogs during recent months.

Enforcement of the leash law controls will be rigidly adhered to by the city, with Animal Control Inspector Richard Davis enforcing the ordinance requirements.

Most important feature of the ordinance, and from which its name is derived, is the requirement that dogs be impounded on the owner's property and when off the property be controlled by a leash.

College Advisement Night For Students, Parents Nov. 18

Nov. 18, mark your calendars!

Mrs. C. G. Hennesy, president, announces that plans have been completed by the Parent Teacher Assn. of Upland Junior High for the forthcoming dinner to be held in the Elementary School cafeteria, Tuesday, with Mrs. Karl Van Riper in charge of dinner arrangements. Serving will commence at 5 p.m. and continue till 7 p.m. The musical entertainment will start at 7:30 in the auditorium.

Parents of the students are contributing all food, except the ham. Volunteers will be needed to help with the serving and other tasks.

Expensive Auto's Owner Sought

Couch Chevrolet is today looking for the owner of a 1955 Cadillac automobile in good operating condition.

The expensive auto was left for repairs at the garage for repairs last Oct. 6 by an unknown man who stated he would return for the car. Early this week, the local concern contacted the police as the car has never been claimed.

Council Okeys Home For Aged Women

A first class home for elderly women is virtually assured for Upland, with a conditional use permit approved for a record of survey submitted for such a development in an R-3 zone on W. Arrow Hwy., 500 feet east of Mountain Ave.

J. H. Mack, who has previously been associated with a similar operation in the Los Angeles metropolitan area, proposes to develop the home for feminine senior citizens. Mr. Mack has been an Uplander for three years, residing at 1439 N. First Ave.

The property currently is owned by Robert Sherwood, who several months ago obtained a change in zoning from R-1 to R-3 for the area.

The property proposed for the rest home development touches the west boundary at the rear of two Baldy View Estates residences. An alleyway will provide an additional separation. Two vacant R-3 lots separate the rest home site from the Baldy View Estates homes facing on Arrow Hwy.

A large delegation of residents of the Estates area were at the Thursday City Council meeting to protest the annexation, but the concensus of the Council appeared to be that the residential area could be little affected by the rest home development. Many of the protestants live on streets two or more blocks from the development site and even farther away by street access.

Appearing in opposition were J. H. Olivier, Wm. O. Thomas, Jack Morris, Don Lewis, D. W. Harris, Robt. Kuntzel, Mrs. L. K. Davis, Dr. R. H. Crawford and Lee Kilpatrick. Letters of protest were read from Robt. Hutchinson, Maurice Goodban and Dr. L. O. Stokes.

Joint Funeral For Hilke Bros. Today

Joint funeral services will be held today, 1:30 p.m., for the Hilke brothers, lenard and Dale, who were killed in a fiery auto-train collision early Southern Pacific rail crossing on Valley Blvd. in Fontana.

The Rev. Wm. E. Thompson of Upland Church of the Nazarene is the officiant for the brothers' funeral services today in Bellevue Cemetery Mausoleum Chapel. Burial will follow in the cemetery.

Lenard Hilke, 29, 577 Eighth Ave., was a local dairy worker, and Dale Hilke, 24, of the same address, was a pest control worker. Both are survived by their parents, Mrs. Alice Hilke of Upland and Leland Hilke of Montclair.

Also surviving Lenard are his widow, Opal, of Ontario, and a son, Larry Lee, 5. He had lived in this area since 1938. Other family members surviving the brothers are their two sisters, Mrs. Audrey M. Ketchum of Pomona and Teresa Hilke of Montclair, and two other brothers, Richard, with the Air Force at Norton AFB, and Robert of Arcadia.

"Messiah" Is Yule Prelude In Churches

Handel's great oratorio, "Messiah,' will be sung simultaneously in approximately 75 different churches of Southern Calif., Phoenix and Las Vegas, again this Christmas season with W. Campbell Nelson serving as Upland-Ontario area manager.

Foothills Music Assn., will be joined by the Whittier Civic Chorus of 120 voices and the Whittier Symphony Orchestra of 80 instrumentalists Dec. 5 to present the greatest Messiah Festival ever planned.

Two hundred voices will take part in the major holiday production set for Ontario National Guard armory, the only facility locally which is capable of handling the musical forces to perform.

A preliminary performance of the "Messiah" will be given by the Foothills group in Bethel Congregational Church, Ontario, Sunday afternoon, Nov. 30, with organ accompaniment. The massed concert will be repeated Dec. 7 in Whittier.

Harry Wright Buys Howard Hill Service

Harry W. Wright, at one time a partner in Upland Motors, has recently purchased business interests of Howard Hill at 259 E. Arrow Highway. Mr. Wright took possession of his new enterprise Monday.

The firm will be re-named Harry Wright Service and will be advertised as "Upland's Only Complete Tire Center."

Mr. Wright said that present plans call for a complete line of tires for trucks, cars and sport cars. First line tires will be featured by such makers as Denman, Dunlop, Diamond, Hood, Brunswick and Miller.

In addition to featuring tire service, the new firm will specialize in general repairing, tune-ups and brake service. Other automobile features will be added later as the business expands, Mr. Wright said.

No person owning, possessing or having control; or harboring any dog or other animal shall suffer or permit the same to run at large on any public street, alley, lane, place or premises not owned by such person. The provisions of this section do not prohibit permitting or allowing dogs to run at large on the premises of the owner or person having charge, care, custody or control of such dogs, nor prohibit permitting or allowing dogs other than unspayed female dogs during the copulating season to run at large on any ranch or undeveloped property when within a radius of five hundred (500) feet therefrom there shall be situated not to exceed five residential or commercial establishments other than the residence of the person owning or having charge, care, custody or control of such dogs.

Section 6: KEEPING DOGS AND ANIMALS WHICH DISTURB THE PEACE PROHIBITED AND DECLARING THE SAME A NUISANCE.

(a) The keeping or harboring of any dog, cat or other animal or fowl whether licensed or not, which by habitual howling, yelping, barking or other noise disturbs or annoys any considerable number of persons or neighborhood is unlawful, and is hereby declared to be a public nuisance and each day shall constitute a separate offense.

(b) It shall be unlawful to suffer or permit any animal to trespass on private or public property so as to damage or destroy any property or thing of value and the same is hereby declared to be a public nuisance. Whenever it shall be affirmed in writing by three (3) or more persons having separate residences, or regularly employed in the neighborhood that any animal is an habitual nuisance by reason of trespassing, howling, barking, or other noise, or damage to property, by its actions potentially vicious or in any other manner causing undue annoyance, the poundmaster if he finds such nuisance to exist, may impound any such animal.

Section 7: POWERS OF POUNDMASTER. The Poundmaster and all Deputy Poundmasters shall be vested with the power of police officers of the City of Upland, including the power to make arrests and issue citations for violations of this ordinance and the laws of the State of California relating to the care, treatment and impounding of animals. They shall be authorized to enter upon the premises upon which any animal is kept, for the purpose of ascertaining if a license has been secured, and for the purpose of seizing or impounding any animal found running at large, or staked, or herded or grazing, contrary to the provisions of this ordinance, or upon receiving a subscribed complaint stating that there is reason to believe that any law of this City or the State of California relating to the humane care of treatment of animals is being violated, to enter upon such premises and to ascertain the accuracy of such complaint and to impound the animal or take such other action as will remedy the condition if it be found to exist. The Poundmaster and all Deputy Poundmasters shall also be vested with all the powers provided for under the Rabies Control Act.

Section 8: DUTIES OF POUNDMASTER. The Poundmaster shall have the following duties, to wit:

(a) To take up, impound, and safely keep any dog or other animal found running at large, staked, tied or being herded or pastured in any street, lane, alley, court, square, park or other place belonging to the City of Upland, or upon the premises of any person other than the owner of such dog or other animal.

(b) To take up immediately any animal which the poundmaster has reason to believe is infected with rabies, whether the same has bitten any person or not, and to take said animal to a veterinarian licensed under the laws of the State of California, for the purpose of examination and obtaining a qualified opinion as to such infection with rabies. If such examination results in a determination that the animal may be infected with rabies, to impound said animal for the period recommended by such examining veterinarian. In the latter case the cost of such examination and impounding shall be borne by the owner. In the event that a determination of no rabies is made, the cost shall be borne by the City.

(c) To take up and impound any dog off the premises of his owner and not having a license tag on his collar, harness or other device as required by this ordinance

(d) To make a complete registry of impounded dogs and other animals showing in detail in the case of each animal, the dates of receipt, the breed, color and sex of such dog or such other animal, and if licensed, the number of such license and the name and address of the owner, the date and manner of disposal, the name and address of the person redeeming or purchasing, and the fees and charges and proceeds of sales received on account thereof.

(e) To maintain and care for the public pound and furnish adequate food and drink for all dogs and other animals impounded therein.

(f) To notify by mail the owner of any animal or dog impounded by him, stating that such animal or dog is confined at the City Pound, and specify the amount necessary to reclaim or redeem the same, as provided in this ordinance, and the period which such dog or animal will be held before destroying or otherwise disposing of the same. Such notice shall be deposited in the United States postoffice, or a mail box, in a sealed envelope, with postage prepaid, addressed to the owner of said animal, at his place of resident, if known, but if not known, then addressed to the owner at Upland, California. If the name of the owner of such impounded animal is not known or after reasonable investigation, cannot be ascertained, then the notice may be dispensed with, in which case such animal may be disposed of by the poundmaster after the same has been impounded for four (4) days. No disposition shall be made to other than the owner until the lapse of four (4) days following such notification.

(g) The Poundmaster shall be vested with the powers and duties of a Deputy License Collector and shall have the power to collect license fees and to issue certificates and tags prescribed herein.

(h) To sell, subject to the owners right of redemption, any impounded dog or other animal after the fourth (4th) day of impoundment for a minimum of Three and no/100 Dollars ($3.00) plus sales tax, or should more than one person wish to purchase the same dog or animal, the poundmaster shall sell to that person offering to pay the highest amount in cash over the minimum.

(i) To destroy any dog which has been impounded for four (4) days or more after mailing notice to such owner, and which has not been claimed and redeemed by its owner, or has not been given to some person who will provide a suitable home for such dog.

(j) To sell any other animal than a dog which has been impounded for more than four (4) days, after mailing notice to such owner, and, if unable to find a purchaser, to destroy such animal.

(l) To collect and remit to the City Treasurer all fees received for redemption and reclaiming of dogs or other animals impounded by him, and all proceeds received upon the sale of impounded animals.

Section 9: REDEMPTION OF ANIMALS. The owner of any impounded animal shall have the right to reclaim the same at any time prior to the lawful disposition thereof upon payment to the poundmaster of the costs, fees and charges provided for in this ordinance.

Section 10: FEES FOR REDEMPTION OF ANIMALS. The Poundmaster shall charge, receive and collect the following fines and charges upon impounded animals:

(b) The sum of Two and no/100 Dollars ($2.00) as and for a redemption fee.

(c) In addition to the above fees, penalties and charges, the poundmaster shall charge and collect the following sum per day for feeding and caring for impounded animals.

For each dog. . . . .75¢
For each cat. . . . . .50¢
For each horse, colt, jack, mule, bull, steer, cow, calf, hog, sheep, or goat. .1.00
For each rabbit, bird, fowl or other animal not specified above. . . . . .25¢

Section 11: REDEMPTION OF ANIMAL BY OWNER AFTER SALE. The owner of any dog or other animal at the time the same is impounded may at any time within thirty (30) days after it has been sold redeem such dog or animal from such purchaser by paying him the amount of the purchase price paid to the poundmaster, and in addition thereto the charges for feeding and caring for such dog or animal according to the schedule set forth in Section 10 of this ordinance.

Section 12. COMPLIANCE WITH CALIFORNIA AGRICULTURE CODE REQUIRED.

Notwithstanding any provisions in this ordinance to the contrary, the Agriculture Code of the State of California, Division 3, Chapter 8, shall be complied with in reference to estray bovine animals, horses, mules, or burros.

Section 13: PENALTIES. Any owner found violating any provision of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Fine Hundred Dollars ($500.00) for such offense.

Section 14: REPEAL OF CONFLICTING ORDINANCES. Ordinances No. 318, 358, 381 and 508, and all other ordinances or parts of ordinances inconsistent and in conflict with this ordinance are hereby repealed.

Section 15: SEPARABILITY OF PROVISIONS. It is the intention of the City Council that each separate provision of this ordinance shall be deemed independent of all other provisions herein, and it is further the intention of the City Council that if any provision of this ordinance be declared invalid, all other provisions thereof shall remain valid and enforcible.

New Fire Truck for Cucamonga

By next summer, Cucamonga district will be served by the latest fire truck on the market, a 1250 gallon per minute pumper ordered recently by Cucamonga Fire District from American La-France.

Fire Chief Arvid Lewis said the new truck is a major step in developing the best possible fire protection for the district with the resulting savings to the taxpayers of the district in lower insurance rates.

Commissioners selecting and ordering the truck at a special session of the Board of Commissioners are Ralph Santolucito, Verne Hinrichsen; Chief Lewis and Secretary Leslie L. Foster.

Incorporation Group Soon To Be Created

Procedures relative to the incorporation of Cucamonga district as a city now await the formation of an incorporation committee with each of the major community organizations to elect a committeeman for the decisive group.

Cucamonga Chamber of Commerce will meet Thursday, Dec. 4, for the annual election of officers and to also select its committeeman for the incorporation committee, according to Chamber Sec. Chas. M. Smith, committeeman for the incorporation committee. Cucamonga District Lions club, Cucamonga Service club, Cucamonga-Alta Loma Woman's club will follow suit.

Act On Recommendation

Once appointed, the committee will meet to act on the recommendation of the district study group that the area be incorporated. The study report was recently submitted to the Chamber of Commerce with the incorporation endorsement by the group delegated the responsibility. Each of the community groups previously mentioned were represented on the committee, which was headed by Arthur Endean, a Chamber representative.

The committee report was based on several months of study, during which time the recent incorporation of Montclair was carefully analyzed, a previous incorporation study committee's findings were scrutinized, information from the State of California, County of San Bernardino and City of Fontana was reviewed, and the costs and revenues of an incorporated city were estimated and found compatible.

No Tax Levy Forseen

A total income of $118,900 from revenues was estimated for the proposed incorporated City of Cucamonga, with estimated expenditures for the first year of operation set at $92,800. This would provide an estimated reserve of $26,100 at the close of the first year of operation, eliminating the need of a tax levy to properly operate a city government, according to the committee findings.

The study group expressed the opinion that Cucamonga district "is not at this time nor has in the past received its deserving share of monies paid to the County of San Bernardino, in services and improvements." This opinion combined with the favorable facts, data and information compiled, led the study group to endorse incorporation action.

The estimate of expenditures to operate a city government for Cucamonga for one year includes the following: Public health, $400; Police department (four men, one car), $26,400; Streets (approximately 60 miles), $24,000; Salaries (city clerk), $5,000; City Council fees, $1,800; Insurance, $1,000; Lights, telephone, miscellaneous, $800; Planning Commission, $1,500; Rent, printing, supplies, $2,500; City Attorney, $4,500; Membership, League of Calif. Cities, $400; Office equipment, $2,500; Office expense, $1,500, and Planning and Engineering salaries, $20,500.

Incorporation Question

There's a group of people adjacent to Upland who soon will have to decide an important question.

They may be included in a incorporation of Cucamonga. They may be annexed by Ontario. They may be annexed by Upland.

There is another possibility, of course, and this is that they must stay a part of the unincorporated area of San Bernardino County.

This is highly unlikely, and not a very realistic viewpoint, we believe, considering the past and the future.

The area we refer to is next to Upland, just across Grove Ave.

This general area geographically is tied to Upland about as close as any area could be. However, as a school district, as a fire district, and in other ways, the area is tied to Cucamonga.

Generally complicating matters is the avid desire of Ontario to annex every bit of land they can. We suspect that Ontario would be happy if the entire area clear up to and including Alta Loma were annexed.

We predict that bite by bite, and piece by piece, this area eventually will be nibbled upon until it is a real hodge-podge and a mess that will take years (if ever) to straighten out.

We already have had a big slice of Cucamonga carved off by Ontario, and the future looks gloomy if we believe we can continue to maintain the area as it is under county rule.

Once more sections are annexed by Ontario, they will be annexed permanently.

We are happy to recognize that Upland and Cucamonga have honored a so-called "gentleman's agreement" not to raid each other's areas. And we certainly think that each should continue to honor such understandings.

But the time has come when Upland and Cucamonga are destined to grow. And now is the time when such a basic issue as annexation or incorporation should be examined realistically and the long-range future planned.

For years past there was no great need for such a study as the communities were small and growth only sporadic, but no longer.

At this writing we hold no opinion for or against incorporation by Cucamonga, or annexation by Upland. But we think an overall comprehensive study should be made immediately to determine what should happen.

We cannot sit around in a dead stupor, and let the situation go from good to bad to worse. We strongly urge that a study be made now to consider the broad implications of a do-nothing policy vs. a well-planned program.

Buildings Plus Brains

The hope of the future lies in the education of our youth.

If we, as a community, pay attention to any special part of our surroundings, we believe the schools deserve first attention.

We refer to the buildings, the material facilities.

In this respect we think our Boards of Education have a big problem in just keeping up with the growth. Upland has had this problem and will continue to struggle with it.

But we refer really to the caliber of education, the quality of the teachers, their methods. We refer to the curriculum, the courses as they are taught, and what is taught in them. We refer to the policies and standards set by the Board itself, and the Superintendants and Principals.

Many times a community builds a big fine building, and all for naught. Sometimes a brand new building can be an empty shell.

Tied in with this philosophy is that of double sessions . . . . where the growth outstrips even the most ambitious building program, and then the quality of education is cut down.

We believe double sessions are deplorable; and evey possible means to eliminate them should be undertaken.

If double sessions were as good as single sessions, the schools could accomodate twice as many pupils in each school as is now considered proper. Double sessions are a curse of growth, and a burden on the child who must struggle to make up for inadequacies of time and attention placed upon him.

As we plan for the future of our Upland schools, we must consider not only our building programs, but also the caliber of teaching that goes on inside the building.

If we had to choose between the two, our children would receive their educational stimulation from the best teachers with the best methods . . . whether it be in a barn, a shack, or a warehouse.

For Better Living

By ELWIN ALDER

City Manager, City of Upland

In the Summer of 1957 the City of Upland modernized one of its operations, the disposal of refuse. This modernization has contributed much to better living in Upland. The importance of this operation will greatly increase as the community grows and expands in the future.

For many years the waste material, excepting garbage, collected throughout the City was dumped in a pile and burned. True this was an inexpensive method of disposal and a very common accepted practice but certainly not a clean or sanitary method. The Easterly morning breeze would carry smoke from the burning debris across the City and with it the offensive odor of burning rubbish. Swimming pools were being sprinkled with ashes from the fire. The downslope movement of air at night carried the putrid offensive smell of the burning dump into the bedrooms of Upland homes. Many residents found sleep impossible under these conditions. Furniture and clothes became saturated with the odor which lingered many days. Then there was the presence of rodents at the dump which created a health menace to the community. Fire was a continual hazard. Several times it jumped the space barriers and swept madly through the brush causing extensive damage before it could be brought under control. Perhaps the greatest objection to this method of disposal was the filth and pollutants released into the air through the burning process.

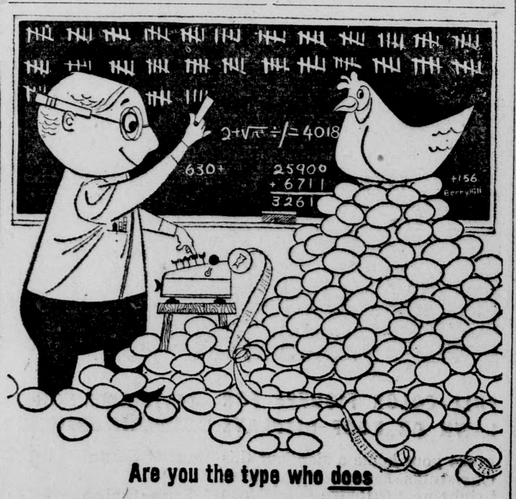

Through the untiring efforts of the City Council a site was purchased to provide a more acceptable method of refuse disposal. This property embracing 34.4 acres was formerly used by a rock company for mining of rock. A large pit on the property lends itself nicely to the new operation.

The old method of disposal was known as "open face burning" and the site was called a "dump." The new method is known as "cut and cover method" and the site is known as a "modern sanitary disposal site." The name describes the operation completely. A cut is made to bury the refuse and the material excavated is used to cover the fill. To get better compaction and speed up the process of decomposition the waste material is watered before it is covered. With the refuse entirely buried it proves to be a sanitary method of disposal.

To start an operation of this kind was no little undertaking. Land costs ran about $85,000; equipment and other necessary facilities cost in the neighborhood of $15,000, making the total outlay around $100,000. The wise decision made by the City Council to try this method of disposal has been adequately justified by the success achieved during the first year of operation. Complaints have been entirely eliminated; fire and health hazards no longer exist and the land use over a period of years will enhance land values in that quandrant of the City. If the population trend follows the forecast the site should take care of the City's needs for the next 10 to 15 years.

Once the land has been fully utilized for this purpose and the reclaimed area brought up to the level of the surrounding terrain the property will be put to other municipal uses. Shops, storage buildings and offices of the Public Works Department will be located on the site. Many acres will be available for a park, golf course, or other various recreational uses or, perhaps, some light industry.

If you have not already done so it would be well worth your time to visit the Modern Sanitary Disposal Site planned and developed for better living in Upland by your City Council. The site is located in the 1400 block on the East side of North Campus Avenue.

A NEW GATEWAY

Once we looked upon a service station for Euclid Ave. and Ninth St. with some consternation.

We were not one of the many who were horrified by the prospects of having the old church building on that corner razed. In fact, we have seldom looked forward to anything with keener anticipation.

But a service station at the entrance of Upland's shopping center seemed, at most, a last resort.

Today our attitude has changed considerably. The service station being completed on the old church site is perhaps the biggest improvement the business district has known for many years.

It is the new gateway to the downtown shopping center. Ninth St., which once looked like a narrow little mid-west street, now opens from Euclid with the broad expanse of open space created by the new service station plan.

A motorist on Euclid can actually see a business district off the avenue, and as First Ave. is developed with business, this picture will be enhanced.

What was once considered with consternation should be recognized for what it is: An open door to our downtown merchants.

New Books For You . . .

At The Upland Public Library

News of new books is intermingled with other news of happenings at your Upland Public Library.

First, to get the bad news over quickly: A new policy has been set by the Library Board of Trustees which will begin November 15. It raises the fine for an overdue book from two cents to three. This is done in order to encourage you to return the book when it is due. A lost book will cost the loser the cost price of the book, plus a $2.00 fee to cover the cost of cataloguing the book, preparing it for your use, and replacing the one lost. Fair enough, don't you think so?

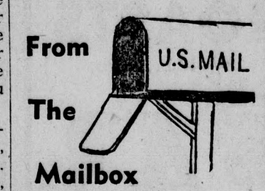

Many new novels, well reviewed and of interest to all, have arrived on the shelves.

Mildred Savage's PARRISH, already purchased for a movie, is a moving tale of industrial encroachment on the estates of landed owners. The site is a Connecticut tobacco plantation. Human emotions entangle the process of change and illustrate the force of the new against the old.

THE BEST OF EVERYTHING by Rona Jaffe is indicative of another change that one sees emerging in America. It is the story of five girls who gravitate to New York not to work on a career but to play at one while they search for what they really want - - a husband and a home. How they win-or lose-is a story frankly told by a twenty year old New York girl who knows.

If you liked Robert Paul Smith's WHERE DID YOU GO, you will want to read his collection of three novels - SO IT DOESN'T WHISTLE, THE JOURNEY and THE TIME AND THE PLACE - published under the title, WHERE HE WENT. All three are stories of today's young man wherever he may be, as he meets life in the form of talk, girls, jazz, his work, his marriage.

VICTORINE by Frances Parkington Keyes is another of her rich stories of human emotion. This one set in Louisiana, is a tale of love and murder and the faith of a woman in her man. It is a good story, one you will become involved in.

LET'S FACE IT

A doctor in L. A. says two of his patients died as the result of smog.

Now there is a hassle between the coroner's office and the city, or so it seems, according to the Herald Express newspaper. Now I ask you my dear public, would there have been any question if this doctor had given a death certificate for a congested lung infection? Or any other pulmonary condition?

Let's ask God to bless this doctor and men like him that have the convictions and courage to state facts and truth. If there was less manuevering for selfish benefit the Los Angeles people and those of surrounding areas would benefit.

N. G. Davis

THE MOUNTAIN IS YOUNG by Han Suyin, French-Chinese writer and is a tale of the conmingling of European and Nepalese people in the strange land of Nepal. The story is important for its portrayal of the impact of the twentieth century on what is essentially an eleventh century civilization. And, of course, the style of Han Suyin, is perfect. You may not like the characters and their goings - on.

RED QUEEN, WHITE QUEEN by Henry Treece is an historical novel of England during the first century when Rome occupied the land. This is a novel of tender love mixed with savagery and turbulence.

Illustrative of a continuing interest in Elizabeth I is Kenyon's SHADOW IN THE SUN, a biographical novel. Like all biographies, this one presents a unique interpretation of the known facts of her life; the novel structure casts it in interesting, readable form. Kenyon is one of our recognized biographical novelists.

And finally, along our new fiction titles is Boris Paternak's DOCTOR ZHIVAGO, the one that won the recently awarded Nobel Prize for Literature. Nearly out of print already, only one copy has reached us and the waiting list is long, but other copies are on order. The book is not fast reading but its slow-moving intensity holds you to the end and its characters, though strange and foreign in their thinking, live with you. Passages of lyric beauty attract your attention and the insights, the book gives into Russian living during and after the Revolution of 1917 are rewarding. Its expose of Communism for what it is and the reactions of the average Russian to it are, of course, its main feature for today's reader.

Dr. Pulling will review the Nobel prize winning book "Dr. Zhavago" by Boris Posternak. This book and author have been much in the public eye of late, not only because of the Nobel award, but also for the controversy that has arisen in Russia, following the award to its author.

At the Section's October meeting, there were 12 members in attendance and more are anticipated for this November meeting.

Alan McNeil, son of Mr. and Mrs. Nellis C. McNeil, 2481 Euclid Crescent West, is serving on the coordinating committee of Religious Emphasis Week at University of Redlands. The Upland senior is general co-chairman for the event.

ELEGANCE— without ostentation

This, we believe, is the reason why people who set the style are swinging to Ford as never before

By now the new 1959 car models are only a few weeks old. Yet already one fact is evident and inescapable — *In almost every community across America, the leaders in style and taste are enthusiastically swinging to the new Ford — even more than ever before.*

* * *

In the past year, you have seen a number of rather bizarre styling innovations. Some — such as the "Sack Look" — were overnight sensations that soon lost favor. Others have "grown" in acceptance with the American public.
This discrimination, we believe, again reflects the inherent good judgment of the majority of Americans who prefer good taste to ostentation.
And it was with this in mind that the 1959 Ford was styled and created — from its Flying-V deck to its new Thin-Line graceful roof to its Fashion-Star Grille.
In every thoroughbred line and elegant detail, it has the stamp of Thunderbird. No outlandish angles, no built-out bustles, no contrived effects. Not an awkward line from any angle.

* * *

Now slip behind the wheel or settle in the back seat. All outdoors seems spread around you. Yet you don't have that "caught in a bathtub" feeling . . . or a need to keep your sunburn lotion handy. And you'll be glad to know those slender pillars supporting the airy roof have been triple-tested for roll-over.
Again in 1959, Ford respects your pocketbook . . . from purchase to performance to trade-in.

* * *

You might say we're proud of our new '59 Fords. Proud, too, that they were awarded a Gold Medal by the French Committee of Elegance at the Brussels World's Fair. Trust your own good taste. The elegance that is Ford's in '59 will continue to appeal to discriminating car owners for years to come. We invite you now to see and drive this most exciting Ford in history.

$104 Raised For "Oasis"

Fashions, Luncheon Indisputable Lure

BY FLORENCE TOWER

Upland women proved their interest in fashions Monday or perhaps it was for the pleasure of lunching at the Stuft Shirt restaurant, but we suspect it was the indisputable lure of a combination of both when a "full house" greeted the fashion show sponsored by J. J. Atwood Co. and the Stuft Shirt as an "Oasis" benefit.

In spite of threatening weather, tables had to be added to accommodate the guests, and some who could not be seated for lunch during the show, were seated on chairs provided for their comfort. Needless to say, it was a success, raising $104 for the Oasis, Chaffey district youth center.

Jack Atwood represented the J. J. Atwood Co., welcoming the guests and also introducing Bruce Grube Jr., president, and Dan Lynch, vice president, board of directors of the "Oasis." Mr. Grube announced that a tentative location had been selected as a building site for the Oasis club house, and according to last information, the location would be accepted.

Mrs. Wilma Hastings of Long Beach, who conducts a modeling school, prepares fashion shows for TV viewing and is a well known fashion consultant, acted as commentator. She also conducted the fashion show for J. J. Atwood Co. at its presentation a year ago. Fashions featured included sportswear, daytime wear and evening wear for adults as well as small fry fashions for girls and boys. There were 22 models in all.

We couldn't help noticing the number of men's fashions shown, these usually being in the minority at fashion shows. Also noted was the use of red and grey in both men's and women's fashions, brown, ranging from beige to dark brown, and navy blue, suggestive of early spring.

To describe all the fashions presented would be difficult and to select one as more outstanding than another would be almost impossible. Many styles for women featured the empire (pronounced umpeer) in both modified and extreme lines, blouson styling and the trapese. Empire was mentioned as the new line for spring, as set by St. Laurents of the House of Dior. All evening fashions for women were the new, fashionable, short length.

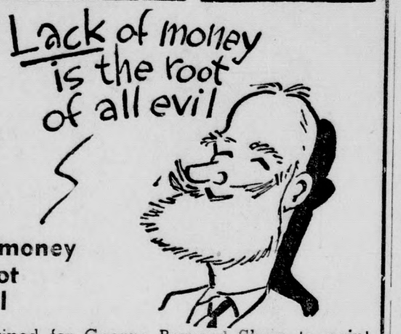

Models promenaded along the poolside runway and then circulated about the tables so that guests might get a closer look.

Huge baskets of white chrysanthemums, gladioli and red carnations, with miniature Santas peeping from behind the flowers were the contribution of George's Flower shop.

$730,317 For County Roads

Apportionment of $12,997,449 in State and Federal funds to California counties including $730,317 to San Bernardino County, for construction on county roads included in the Federal Aid Secondary System is announced by the State Department of Public Works

The allocation, which is for the 1959-60 fiscal year includes $8,724,389 from the Federal government and $4,273,060 in State Highway matching funds.

San Bernardino County's share for 1959-60 amounts to $730,317, of which $630,317 is Federal money and $100,000 from the State Highway Budget.

At the same time, State Highway Engineer G. T. McCoy reported that all the participating counties will succeed in meeting the deadline for obligating the additional 1958-59 Federal Aid Secondary and State matching funds which were provided under the 1958 Federal Highway Act The Federal act requires that the added funds have to be applied to previously unscheduled projects and that these new projects must be under contract before Dec. 1, 1958

December meetings of Upland City Council will be held Thursday, Dec. 4, and Tuesday, Dec. 16, the new ordinance re-establishing regular meeting nights of the city dads for the first and third Tuesday to become effective Dec. 10.

The ordinance was given its second reading and final approval by the Councilmen in session Thursday night. The two regular monthly meetings of the Council are changed from the first and third Thursdays to the first and third Tuesdays to expedite publication notices between Planning Commission and City Council sessions.

Winning Artist Is Paul Darrow

Paul Darrow, Claremont artist, is the recipient of the $500 purchase prize from Chaffey Community Art Assn. for his painting "Seaport", in the 18th annual Invitational Exhibit of Contemporary Painting.

More than 3,700 persons viewed the exhibit which closed Sunday after a week-long run on the Chaffey campus. Final selection was made by vote of the Art Assn. membership, the field having been narrowed to five works by a three-man jury.

Robert Thomas of Santa Barbara received the $50 cash award for sculpture. His "Orpheus and Eurydice" metal sculpture was judged the finest.

Tough, Well-Coached Jayhi Elevens In 7-7 Deadlock

Battling tooth and nail for every inch of turf a pair of tough, well-coached elevens, Upland Junior High's Raiders and Colton's Jayhi club, pounded each other to a 7-7 deadlock on the Colton gridiron Friday. The tie left Upland in front of the pack in the Sun Valley League with five wins and a tie, while Colton is second with four, one and one.

Colton opened the scoring by taking possession of the porker deep in Upland territory after an ineffective punt and driving for the tally in the opening quarter.

The Raiders tied the game up in the second period when Halfback Dan Milakovich sprinted 50 yards to paydirt on a reverse. Fullback Larry Turner bulled over the middle for the tying and final score of the game on the conversion attempt.

The second half saw three definite Upland scoring threats nullified by penalties. First the locals moved to the Colton 12, but a penalty nullified the 25 yard burst by Turner and the threat died on the vine. Second, Halfback Monty Parratt squirted down the sidelines to the Colton 10, but again it was called back. Finally a long gaining pass play was nullified to thwart another penetration.

Defensive quarterback Loren Miller was the outstanding player on the field, spending most of the afternoon in the Colton backfield tossing the opposition for loses. Defensive Tackle Nim Woodring and Halfback Ken Shattuck were also effective on defense.

Upland lineup: Ends-Corny Ballon and Hank Merancio; tackles-John Caldera, James Zitterkoff, John Gilliland, Woodring, Frank Jiminez; guards-Scotty Cameron, Ron Villanuevo, Shattuck; center-Dave Ybarra; quarterback-Miller; halfbacks-Parratt, Louie Morales, Milakovich, Lester Johnson, and fullback-Turner.

ROERT J. LONEY

Loney Tells Psychology Of Interests

"Mathematics is attracted to me; and I am attracted to physical education!" This unusual statement was made by Robert J. Loney, new mathematics instructor at Upland High School. To further confuse the issue, Loney disclosed that he has an A. B. degree in psychology.

"It is very simple," he said. "Math likes me, so I teach it. I like sports, so that is my hobby." Considered a whiz at math by his colleagues, Mr. Loney balances his work by acting as assistant coach of the B football team, and will coach the D basketball team in the spring.

He was student body vice president at Anderson College, Indiana, where he received his degree. He lettered in track for four years, and was captain two years. He lettered in football three years, and was all-conference end.

He was named to "Who's Who in American Colleges and Universities" in 1954. He taught at Oxnard High School one year, and at Chaffey one year before joining Upland's staff this fall.

Mr. Loney lives with his wife, Catherine and their son, Jim, two years old, at 610 Juniper Ave, Upland. He is Sunday School superintendent at First Church of God, Pomona.

Mr. Loney's students admire him, both for his wide knowledge of mathematics, and for his sportsmanship.

Upland Hopes Diminish With 3rd League Loss

BY REED HANSEN

With three games already lost, Upland's hopes have all but diminished for attaining their first league title. The Highlanders were defeated by Chino Friday at Graber Field and have yet to make a touchdown in league play.

The first half was all defense, although Chino did have a 36-yard punt return by Dave Derryberry nullified by a penalty in the first quarter.

Then Chino got a big break early in the third quarter when the ball sailed over Steve Fleming's head on an attempted punt. Fleming recovered the ball and got off a pass which fell incomplete giving the ball to Chino on Upland's 16. Three plays and one penalty later the Cowboys were in business as Derryberry carried the pigskin over from nine-yards out. Ed Curtis booted the extra point and the Highlanders were at a 7-0 deficit.

The visitors' second TD came on a 63-yard march in the opening minutes of the fourth quarter. Reserve halfback Don Underwood had the privilege of scoring the only second touchdown in one game against Upland in league play. The PAT failed and Chino saw their squad winning by a 13-0 score.

Upland came back with the most exciting play of the game though, as it sent the Highlander rooters into a frenzy. As quarterback Ken Storms faded back, he was rushed by Chino's defensive line. Getting out of reach of one possible tackler and running from another's grasp, he succeeded in getting off a wobbly pass that dropped into Louie Schmutz's waiting hands and the speedster sped into the end zone. But again Mr. Penalty prevailed as Upland had an illegal receiver downfield, nullifying the score.

Gamble Backfires For Bee Defeat

A third down gamble deep in its own territory with but 30 seconds left to play backfired on the Upland High School Bees Friday night and the Chino Cowkids capitalized on a safety to eke out an 8-6 Tri-County Be League win.

This gives Chino a 3-0 record, while Upland suffered its first league setback but turned in a good team effort.
